 Mumbai, India (**Willing to Relocate**)  +91-9004706505  @harpaljadeja (on Farcaster)

## WORK EXPERIENCE

**Developer Relations Engineer @Celo Foundation**                                            *Jun 2022 - Present*

- I spearheaded the integration of **Opera's MiniPay wallet** into the Celo ecosystem and onboarded key on-ramp partners like *FonBnk*, *Paychant*, *CashRamp* and *YellowCard*.
- As the **SocialConnect** protocol point of contact, I've facilitated its adoption by over **2M users**, including integration with **MiniPay** and various dApps in the Celo ecosystem.
- Created and maintaining **Celo Composer**, **Next.js**-based starter template with **Hardhat** & **Viem** integrated, boasting over **2.9k+ downloads** on npm.
- I am responsible for on-ground and remote support at **hackathons** (5 ETHGlobal and Celo specific), leading to the addition of **400+ projects** in the Celo ecosystem!

## OPEN SOURCE CONTRIBUTIONS

**WalletClient support in Alchemy Account Kit (Alchemy)**
**Drop UserOperations feature in Alchemy Account Kit (Alchemy)**
Metamask Snap KeyringSnapRpcClient API Documentation (Metamask)
Transaction Details screen in Paradigm's Rivet Developer Tool

## ARTICLES & VIDEOS

**ETHGlobal Celo Playlist**
**Coinbase Smart Wallet Tutorial**
**Introuduction to Farcaster Frames**
**What is Modular Account Abstraction?** - Alchemy Blog
**What are Meta Transactions (ERC-2771)?** - Alchemy Blog
Account Abstraction (ERC-4337) vs. Meta Transactions (ERC-2771) - Alchemy Blog

## PROJECTS (10+)

**ZoraCart** - Zora Protocol SDK, Coinbase Smart Wallet, Viem, Plasmo
- ZoraCart is a chrome extension allows adding multiple NFTs to a single cart and checkout/mint all NFTs in a single transaction.
- ZoraCart uses **Coinbase Smart Wallet** and **Coinbase Paymaster** to let user without wallets to Gaslessly Mint Zora NFTs.
- ZoraCart also supports batching transactions which allows minting multiple NFTs that can only be minted via ERC20 tokens!
- Github Link Demo Video

**Account Abstraction Metamask Snap** - Metamask Snaps Keyring API, Pimlico, ThirdWeb
- AA Metamask Snap lets users create a 4337 account inside Metamask.
- Transactions are sponsored by the Pimlico Paymaster!
- The 4337 Account is so seamless it feels like a normal Metamask account but can be used without any gas funds.
- Github Link Demo Video
